Zip Perde Sistemleri, modern dış mekanlar için hem estetik hem de işlevsel bir çözümdür. Güneş, rüzgar ve böceklerle karşı etkili koruma sağlarken, iç mekanların serin ve konforlu kalmasına yardımcı olur. Özel ray sistemi sayesinde perde kumaşı rüzgarlı havalarda bile sabit kalır ve deforme olmaz. Tek bir tuşla kolayca kontrol edilebilen bu sistemler, akıllı ev sistemleriyle entegre edilebilir, böylece günün saatine veya hava koşullarına göre otomatik olarak ayarlanabilir. Özellikle geniş cam alanlarına sahip pergolalar, teraslar ve balkonlar için ideal bir çözümdür.

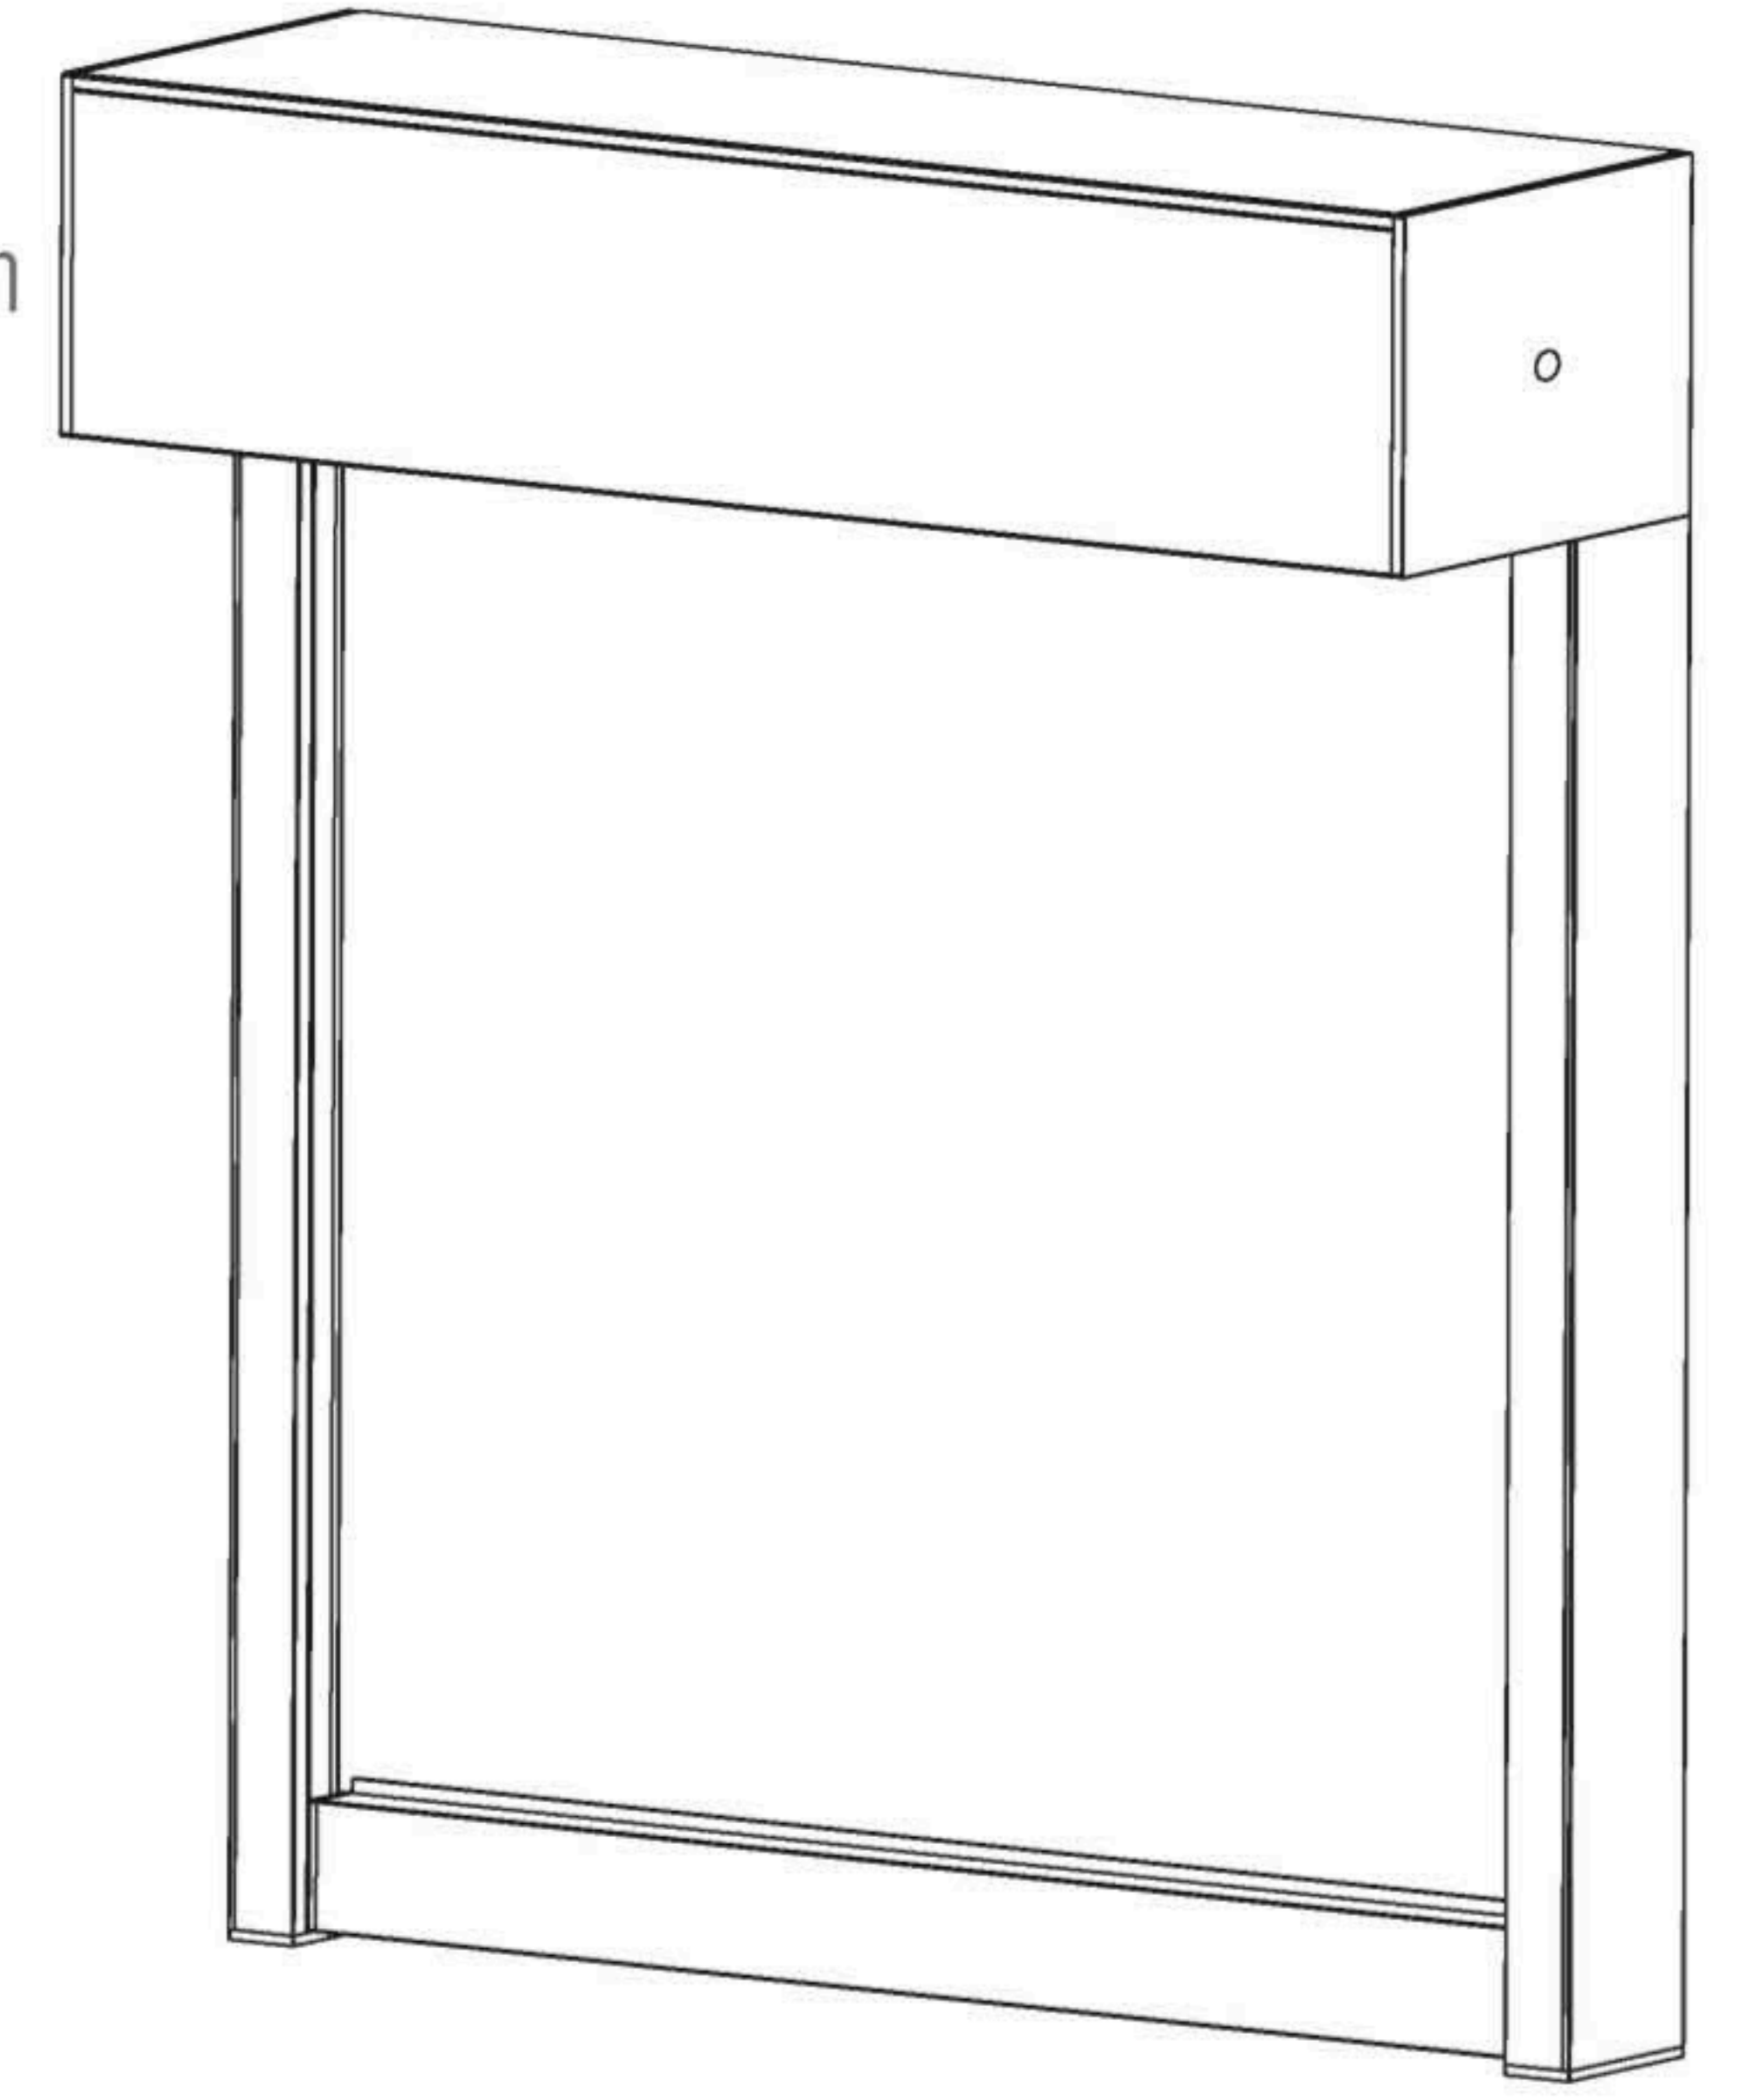

Zip perde sistemleri, çeşitli renk ve kumaş seçenekleriyle dekorasyonunuza uyum sağlar, UV ışınlarını filtreleyerek iç mekanlarda serin ve rahat bir ortam sunar. Ayrıca enerji verimliliğini artırarak yazın klima ihtiyacını azaltır, kışın ise ısı kaybını minimuma indirir. Şık tasarımı ve dayanıklı yapısıyla Zip Perde Sistemleri, dış mekanlarınıza zarafet ve konfor katar.

Zip Screen Systems are both an aesthetic and functional solution for modern outdoor spaces. They provide effective protection against the sun, wind, and insects while helping to keep indoor areas cool and comfortable. Thanks to a special rail system, the fabric remains stable and undisturbed even in windy conditions. These systems can be easily controlled with the touch of a button and can be integrated with smart home systems, allowing for automatic adjustments based on the time of day or weather conditions. They are an ideal solution for pergolas, terraces, and balconies with large glass areas. Zip screens come in a variety of colors and fabrics, seamlessly blending with your decor, while filtering UV rays to create a cooler and more comfortable indoor environment. Additionally, they enhance energy efficiency by reducing the need for air conditioning in summer and minimizing heat loss in winter. With their sleek design and durable construction, Zip Screen Systems add elegance and comfort to your outdoor spaces.

Garanti Şartları

Warranty Terms

Zip perdelerimizde kırmızı ile işaretlenmiş alanlarla ilgili talepler garanti kapsamı dışındadır. Motor ile ilgili yaşanan sorunlarda, garantiden yararlanabilmeniz için arızalı ürünün tarafımıza gönderilmesi gerekmektedir. Ürün tedarikçimize iletilip, firmanın geri dönüşüne göre değerlendirme yapılacaktır. Garanti süremiz, motor, kumaş ve profillerde oluşabilecek firma kaynaklı problemler için 2 yıldır.

Transparan zip perdeler, doğrudan ısıya maruz kaldığında genleşme yapabileceğinden, ısıtıcılarınızın konumlarını buna göre ayarlamanız önerilir. Transparan zip perdelerde çerçeveli ürünlerin tercih edilmesi tavsiye edilir. Teklif taleplerinizde sunduğumuz ölçü ve renk kodları tarafınızca incelenip onaylanmalıdır; onay sonrası yapılacak revizeler ayrıca fiyatlandırılacaktır.

Garanti kapsamında firmamızca onaylanıp değişimi veya revizesi yapılacak ürünlerde malzeme 2 hafta içinde hazırlanacak olup, ürün müşteri tarafından fabrikamızdan alınacaktır. Ölçü ve RAL kodları tarafınızca kontrol edilip onaylanmalıdır. SKYZIP serilerimizde Blackout ve Waterproof kumaşlar tavsiye edilmemektedir. Müşteri talebine göre üretilen ürünler garanti kapsamı dışındadır.

For our zip blinds, requests related to areas marked in red are not covered by the warranty. To be considered under warranty for issues with the motor, the faulty product must be sent to us. The product will be forwarded to our supplier, and the evaluation will be based on the supplier's response. Our warranty period for motor, fabric, and profiles covering company-related issues is 2 years.

Transparent zip blinds may expand if exposed to direct heat, so it is recommended to adjust the position of your heaters accordingly. Framed products are recommended for transparent zip blinds. The measurements and color codes provided in our offer requests must be reviewed and approved by you. Revisions made after approval will be priced separately.

For products approved by our company for warranty coverage, changes, or revisions, the material will be prepared within 2 weeks, and the product will be collected by the customer from our factory. Measurements and RAL codes must be checked and approved by you. Blackout and Waterproof fabrics are not recommended for SKYZIP series.
